- ★ 3rd - Jessie May skydive
- ★ 11th - The Big Lunch
- ★ 18th - Father's Day
- ★ 21st - World Music Day

recipe for success!

The Everest Challenge

We can't all make it out to Nepal to conquer the real Mt Everest, but you can still scale 29,029 feet to reach the summit!

All you - or your team - need to do is walk up 52,047 stairs and you'll have ascended to the same height as the Earth's highest point.

This challenge is all about sponsorship and teamwork, so get together with some friends and see who can reach the peak first, and find out who can raise the most money as they go!
